

Tools of the Trade

FURNITURE – The Delineation line by Council Contract includes casegoods, conference tables, desks and credenzas, bookcases, occasional tables, and executive seating. Designed by John Black, the collection uses elegant materials, such as ribbon-stripe mahogany, in its clean silhouettes. These designs are showcased in the new Council Contract C50 finish (a dark coloration with rich eggplant undertones), but each is also available in eight additional finishes. The attention to detail in each piece is characterized by Council Contract’s hallmark design element: a checkered inlay of black and white. **Delineation by Council Contract. Circle 219.**
